SUMMARY

The applicant wishes to include alcohol sales (beer and wine) at an existing restaurant. Based upon the application submitted, staff has determined that the existing use does meet the requirements for a Full Service Restaurant (Section 17.156.070), but the premise is located on a restricted street (International Blvd.) and therefore a Major Conditional Use Permit is required.

PROJECT DESCRIPTION

The applicant will operate a 2,000 square foot commercial space at 3284 International Blvd. The restaurant will provide full-meal service (lunch and dinner) and would like to include the sale of beer and wine. Proposed hours of operation are Monday through Sunday 10 AM to 9 PM. The applicant will not alter business hours with their proposed use. The applicant has also indicated that the restaurant will employ a total of 5 people and that no less than 3 employees will be on site at all times. There will be no cabaret activity associated with this operation.

PROPERTY DESCRIPTION

3284 International Blvd. is a two story commercial and residential structure located near 32nd Avenue. The façade is in the Spanish style comprised of stucco with single painted black metal-framed windows with red awnings. Surrounding uses are small businesses typical of the commercial area along International Blvd. There are six alcohol-selling establishments within 1000 feet of 3284 International

Blvd. There are three liquor stores located at 3201, 3401, and 3432 International Blvd; two bars at 3132 and 3271 International Blvd. and one restaurant at 3433 International Blvd..

GENERAL PLAN ANALYSIS

This project is located in the Urban Residential General Plan Land Use Classification. The intent of Urban Residential Use Classification is to identify, create, maintain and enhance multi-unit and concentrated residential structures in this area with good access to transportation and other services. Urban Residential centers include eating and drinking establishments. This area (Central/East Oakland) suffers from blighted conditions, many vacant buildings, and illegal activities. City initiatives in the area stress code enforcement, police enforcement, historic preservation, and façade improvements for commercial revitalization. There is community support for the improvement of this corridor. Existing business districts should be supported, and neighborhood shopping experiences should be enhanced through business retention and attraction efforts as well as through physical streetscape improvements.

ZONING ANALYSIS

The zoning for this site is (C-28) Community Thoroughfare Commercial Zone. The general food sales activity (restaurant) is permitted in this zone. According to Section 17.156.070 "Full-Service Restaurant" means a place which is regularly and in a bona fide manner used and kept open for the serving of at least lunch and dinner to guests for compensation and which has suitable kitchen facilities connected therewith, containing conveniences for cooking an assortment of foods which may be required for such meals. An establishment shall not be considered a "full-service restaurant" if it served alcohol without "meal" service being provided. The Full Service Restaurant shall make actual and substantial sales of "meals" to guests for compensation. Substantial sales shall mean that no less than sixty (60) percent of total revenue shall be generated from food service and no more than forty (40) percent of revenue from the sales of alcohol.

The operation as proposed does qualify for the Full Service Restaurant exemption in the Zoning Code. However, according to Section 17.102.210 (B) 2, the premise is located on a restricted street (International Blvd.). Therefore a Major Conditional Use Permit is required. Findings for a Conditional Use Permit per Section 17.134.050 and special use permit criteria for alcoholic beverage sales commercial activities per Section 17.102.210 (A), must be made.

ENVIRONMENTAL DETERMINATION

The California Environmental Quality Act (CEQA) Guidelines list projects that are categorically exempt from environmental review. Section 15301 exempts minor changes to an existing structure that do not create any adverse environmental impacts.

KEY ISSUES AND IMPACTS

The applicant has proposed a Full Service Restaurant with the addition of beer and wine sales along the International Blvd corridor. Historically, alcohol sales have caused nuisance and crime problems in this area. However, if operated properly, the proposed addition would provide a greater variety of services while generating minimum nuisance due to the limited size and the hours of operation.

With appropriate conditions regarding hours and inclusion in the Deemed Approved Program (Sec. 17.156) this project will meet all of the Use Permit Criteria pursuant Section 17.134.050, which are attached herein and are hereby incorporated into this report.

Staff has verified that the implementation of land use restrictions to curtail nuisance activity has been extraordinarily effective at other similar locations. It has been proven that restrictions on the hours of

operation will significantly reduce the opportunity for nuisance activity to occur. The applicant currently operates on Monday through Sunday 10 AM to 9 PM. Staff recommends that the hours of operation stay the same, but the sale of alcoholic beverages be allowed only between the hours of 11:00 AM and 9:00 PM. Alcohol could only be served during these hours unless limited further by the department of Alcoholic Beverage Control.

The Oakland Police Departments ABAT unit has determined that this use will create minimal if any nuisance activity. As a part of the Deemed Approved Program ABAT will be responsible for monitoring this location. Through active enforcement and police assistance this use will remain safe and successful.

RECOMMENDATIONS:

Based on the analysis contained within this report, and elsewhere within the administrative record, staff believes that the proposed project is an appropriate land use at this location and an appropriate and well designed restaurant that will further the overall objectives of the General Plan, particularly related to the redevelopment and revitalization of under-used parcels in the Fruitvale district near and accessible to regional serving facilities. Thus, staff recommends that the Planning Commission:

1. Affirm staff's environmental determination.
2. Approve the Major Conditional Use Permit subject to the attached findings and conditions.

FINDINGS FOR APPROVAL:

Section 17.134.050 (General Use Permit Criteria):

- A. That the location, size, design, and operating characteristics of the proposed development will be compatible with and will not adversely affect the livability or appropriate development of abutting properties and the surrounding neighborhood, with consideration to be given to harmony in scale, bulk, coverage, and density; to the availability of civic facilities and utilities; to harmful effect, if any, upon desirable neighborhood character; to the generation of traffic and the capacity of surrounding streets; and to any other relevant impact of the development.**

The proposed activity will be compatible with the adjacent and surrounding land uses. As approved, the activity with limited operating hours and inclusion in the Deemed Approved Program (Section 17.156) this operation will not adversely affect livability or appropriate development of the area.

- B. That the location, design, and site planning of the proposed development will provide a convenient and functional living, working, shopping, or civic environment, and will be as attractive as the nature of the use and its location and setting warrant.**

The existing development will provide a convenient and functional living, working and shopping environment by providing restaurant services, alcoholic beverages and retail services to visitors and to workers in the International Blvd. area.

- C. That the proposed development will enhance the successful operation of the surrounding area in its basic community functions, or will provide an essential service to the community or region.**

The proposed development will enhance the successful operation of the surrounding area in its basic community functions, and will provide an essential service to the community by providing food service close to public transit and the major thoroughfares of International Blvd.

- D. That the proposal conforms to all applicable design review criteria set forth in the design review procedure at Section 17.136.070.**

The proposal conforms to all design criteria. The building exists and there have been no proposed changes to the existing structure.

- E. That the proposal conforms in all significant respects with the Oakland Comprehensive Plan and with any other applicable plan or development control map which has been adopted by the City Council.**

The proposal conforms to the Oakland General Plan. It will promote development in this mixed-use urban area. This target area suffers from blighted conditions, many vacant buildings, and illegal activities, with serious implications regarding safety and attracting business and other positive activities. Crime prevention and commercial revitalization are pinnacle goals for this area, therefore the capital improvements and monitoring by the Oakland Police Departments ABAT Unit will encourage and maintain a safe and prosperous development.

Section 17.102.210 (A) Special Use Permit Criteria:

1. **That the proposal will not contribute to undue proliferation of such uses in a area where additional ones would be undesirable, with consideration to be given to the area's function and character, problems of crime and loitering, and traffic problems and capacity.**

The proposal will not result in a net increase in such uses and the activity is in conjunction with other desired activities. As conditioned, the activity will not contribute significantly to problems of crime and loitering. International Blvd. is capable of supporting the projected traffic without affecting the level of service.

2. **That the proposal will not adversely affect adjacent or nearby churches, temples or synagogues; public or parochial, or private elementary, junior high, or high schools; public parks or recreation centers; or public or parochial playgrounds**

There are none of the listed sites close to the site such that the proposal will have a negative affect on them.

3. **That the proposal will not interfere with the movement of people along an important pedestrian street.**

The storefront is on the corner of 32nd Avenue and International Blvd. that allows for pedestrian traffic. This area is usually congested with pedestrian traffic during the week. As conditioned the applicant will be responsible for maintaining the premise and through this maintenance he will control loitering and ensure pedestrian movement.

4. **That the proposed development will be of an architectural and visual quality and character, which harmonizes with, or where appropriate enhances the surrounding area.**

The building exists and there have been no proposed changes to the existing structure.

5. **That the design will avoid unduly large or obtrusive Signs, bleak unlandscaped paring areas, and an overall garish impression.**

The building exists and there have been no proposed changes to the existing structure.

6. **That adequate litter receptacles will be provided where appropriate**

As conditioned, there will be one non-flammable trash container installed outside the entrance of the store and litter will be removed from the sidewalk and gutter in front of and to twenty feet beyond the premises along International Blvd.

7. **That where the proposes use is in close proximity to residential uses, and especially to bedroom windows, it will be limited in hours of operation, or designed or operated, so as to avoid disruption of residents' sleep between the hours of ten PM and seven AM.**

As conditioned, the business will open at 11:00 AM and close at 9:00 PM Monday through Sunday. Therefore the business will not be open during the restricted hours.
