Inspected the entire continuous line of fence in the lower quarry as well as the two separate fences in the upper quarry at Campus Drive. Fencing complied with the requirements of the project's Special Status Species Mitigation and Monitoring Plan. Last week areas of fencing requiring minor adjustments and maintenance level repairs were marked with orange flagging to assist repair crews. Observed this week that these areas had been repaired as requested. Also observed that vegetation encroaching upon the fencing in the upper quarry at Campus Drive had been cut back.
